STEP-ON WASTE BINS WITH LID, GREAT PARTNERS AGAINST COVID-19

Now more than ever, strict hygiene and disinfection measures must be followed. Hence, the Araven range of step-on waste bins with lid is one of your allies in the implementation of the Covid-19 protocol in your hospitality establishment.

When choosing a waste bin, lid is essential to isolate waste from the outside - such as masks, gloves or handkerchiefs. The bin lid should

never be opened manually - a foot pedal should ensure that your hands do not come into contact with potentially contaminated surfaces.

At Araven we have a complete range of step-on waste bins made of PP, a robust material that will allow you to disinfect them thoroughly to prevent any spread of the virus.
