FOOD SAFETY INNOVATION

The waste plastic generated in our factories is 100% recycled and turned into new products **without losing any of its properties**. This action allows us to **minimise environmental pollution**.

HOW DOES IT WORK?

1

Recovery and processing of the
waste plastic from
our production processes

2

Manufactured by reusing
100% waste
plastic

3

We create new products
from 100%
recycled material
